PLEASE READ CAREFULLY AND RETAIN FOR YOUR RECORDS

CONDITIONS FOR THE USE OF

COMMERCIAL/INDUSTRIAL WASTE CONTAINERS

1. A new service or change in current service can only be authorised by the signature of the Property Owner (who's name appears on the rates assessment at the time of application unless application is accompanied by the proof of purchase of the property), the Agent acting on behalf of the Property Owner (i.e Real Estate Agent or Body Corporate) or a Business Proprietor operating a business from the premises.

2. Any service may be increased or changed by an Authorised Officer of the Fraser Coast Regional Council as they see necessary for the amount of waste being produced from any property.

3. All perishable and dusty waste is to be wrapped. Any containers of liquids should be sealed before placing in the bin. All waste containers are to be **filled ONLY to the water line (top of bin) with the lid flush with the top of the bin and kept closed.** The bin must be accessible by the waste collection truck with no extra rubbish in front of the bin. Extra rubbish will not be collected and it is not the responsibility of the contractor to move obstacles or find some one to move them.

4. The 240 litre waste bin should be placed adjacent to the kerb or within 1 metre of the edge of the road, on the night before collection or not later than 6.00 am on collection day. The bin should be facing the correct way, ie. wheels closest to the building. If the recycling labels/stickers on your bin are difficult to read contact Council and a replacement will be sent to you.

5. Bulk containers are to be located in positions as agreed with Council's Contractor. In the case where the Contractor is required to enter the property to service a waste container, the signing and return of the attached application form indemnifies the Contractor from damage to pavements, etc.

6. **If the waste container is not able to be serviced by the waste contractor through being overfull or inaccessible an additional extra service fee may be applicable for the vehicle to return and empty the bin.**

7. Waste containers remain the property of Council and must not be removed from the premises. The rate levied provides for the servicing of the container only. The customer is responsible for ensuring that the risk of theft or damage to the container is minimised.

8. All containers are to be maintained in a clean condition by the owner/occupiers of the property. The containers are not to be defaced in an untidy or obscene fashion.

Businesses can request a one-off extra service. This request is to be received by Council giving a minimum of 24 hrs notice. - The charge for this one-off extra service will be included in the next rate notice to be issued. Fees applicable for this service for the financial year 2011/2012 are detailed below.

REFUSE SERVICE RATEABLE CHARGES 2011/2012	RATED CHARGE PER ANNUM	ONE-OFF SERVICE
