

Waste & Recycling School Education Program

Excursion Safety Checklist

As the health and safety of your students is of the utmost concern, please read the following Safety Checklist, sign the form and return via email to Ashlie.Rogers@frasercoast.qld.gov.au, at least **ONE DAY** prior to your excursion.

Please use this checklist in your excursion planning and preparation.

- The school is responsible for the students' safety and behaviour when they take part in the Materials Recovery Facility and Education Centre excursion. Please refer to your schools' **excursion policies and procedures** to protect you, the parents, and the students whilst conducting activities outside of your school grounds.
- Please note **recommended parent/student ratios** whilst preparing and conducting your excursion – Level 1 and Level 2 required ratio 1:5, and Level 3 and Level 4 safe ratio is 1:8.
- **Safety** - We have strict health and safety procedures in place for the tour. Our facility is an operating business and will not cease for the duration of the tour. It is very important that students are briefed on appropriate behaviour prior to the excursion, and made aware of their responsibility to listen carefully and follow instructions from the Education Facilitator conducting the tour.
- **Parking** – Space is available outside of the education room for bus drop off.
- **Protective Clothing** – All teachers, parents and students participating in the excursion will need to wear enclosed footwear. If someone is not wearing enclosed footwear, they won't be allowed to enter the premises.
- **Ear Protection** – Although it is a very short walk to the Education Centre room, any students, teachers or adults with sensitive hearing will be provided with earplugs.
- **Toilets** – There are toilet facilities available on site.
- **Water** – We recommend that participants bring an adequate supply of water for the excursion.
- **First Aid** – Please ensure that you bring along a First Aid Kit for your excursion.
- **Accessibility** – The MRF Education Room is fully accessible.
- **Mobile Phones** – Mobile phones are allowed but we request they be turned off or switched to silent.
- **Cameras** – Photographs are not permitted inside the centre unless approved by the education facilitator.
- **Media Requirements** – Fraser Coast Regional Council media team may attend for the purpose of taking photographs or film footage for promotional purposes. Please advise if any teacher, parent or student is unable to have their photo taken/be filmed.

We have read the above checklist and understand our responsibilities for health and safety during the excursion.
