ESC Compliance & High Efficiency Sediment Basins

ESC COMPLIANCE & HIGH EFFICIENCY SEDIMENT BASINS 2020

Tuesday, 18 February 2020

Half Day | 9am – 12pm | Morning Tea Provided

Please join us at 8:30am for a 9am start

Healthy Land and Water, together with the Fraser Coast Regional Council, invites you to join us to understand high efficient sediment basin design and best practice erosion and sediment control (ESC) measures from our online ESC Toolkit.

Join us for an informative presentation from the experts that will help you choose the right ESC measures to suit your building site, and provide some useful tips on how to save time and money by preventing soil erosion. More details to follow. To secure your booking, please RSVP and advise if you any dietary requirements by contacting Planning & Growth at Fraser Coast Regional Council on (07) 4197 4372 or email: development@frasercoast.qld.gov.au. Just bring yourself, a notepad and pen.

FREE EVENT | RSVP by Monday, 10 February 2020

▶ Access the ESC Toolkit at hlw.org/esc

For all Construction Personnel | Environmental Advisors | Civil Engineers | Project Managers
