# Food Vendor Licensing and Public Health Guideline for Events

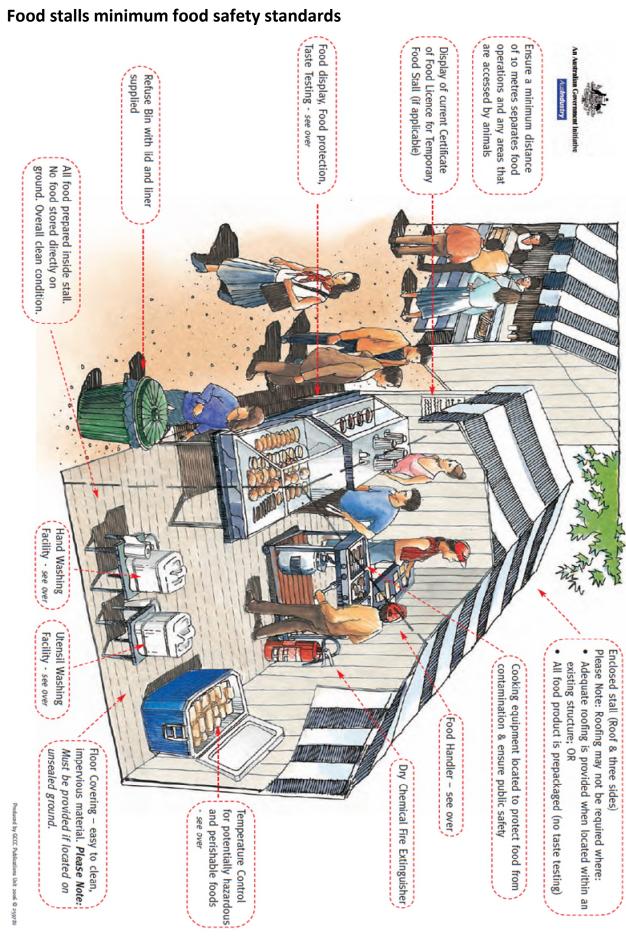

### Do I need a Food Licence to sell food?

Business	Example	Is a Food Licence required?
Туре		
Mobile Food V	/an	
QLD issued	Existing QLD mobile Food Licence holder.	NO Ensure a copy of current QLD issued Mobile Food Licence is on public display whilst operating.
Other State issued	Existing mobile Food Licence holder from NSW.	YES  Either a Mobile or Temporary food Stall Licence is required to operate a food business in QLD.
Temporary Fo	od Stall*	
Commercial	A local food fixed premises having a stall at an event, selling unpackaged potentially hazardous foods.	YES  Must comply with food safety standards and a  Temporary Food Stall Licence is required.
Commercial	Selling pre-packaged and labelled foods from a commercial or domestic setting (i.e. pies, bread, fudge, homemade sauces, jams, cakes, bottles of honey) at a market.	YES Supply to Council before the event proof of your current fixed Food Licence for where the products were manufactured. Please note: once an appropriate Fixed licence is confirmed – no further licence is required. If you need to apply for a fixed Food Licence to manufacture the product there will be fees, application forms and assessment periods involved.
Commercial and Not-for-profit	Selling pre-packaged wholesale items (i.e. biscuits, tins of Milo, canned or bottled drinks such as Coca-cola, etc.).	NO  Must comply with food safety standards and notify the event organiser or Council of the activity.
Not-for- profit	Conducting a sausage sizzle or burger stall and/or serving meals (i.e. roast and vegetables, nachos etc.) less than 12 days per financial year at the one location.	NO  Must comply with food safety standards and notify the event organiser or Council of the activity.
Taste Testing*		
Commercial	Taste testing of Potentially hazardous foods: unpackaged cheese at a wine stall.	YES A Temporary Food Stall Licence is required.
Commercial and Not-for-profit	Taste testing of Non-potentially hazardous foods (i.e. cakes, jam, honey etc.).	NO  Must comply with food safety standards and notify the event organiser or Council of the activity.

Should your food business not fall within the above table please contact one of Council's Environmental Health Officers, on 1300 79 49 29 to discuss your specific business operation.

<sup>\*</sup>Please note: Temporary Food Stall licences issued by local government authorities do not apply outside of that local government area. You will need to apply for a Temporary Food Stall Licence in each local government area you operate from if so required.

ARTISTS IMPRESSION – MINIMUM STANDARDS FOR THE OPERATION OF A TEMPORARY FOOD STALL

## Food stall minimum food safety standards continued...

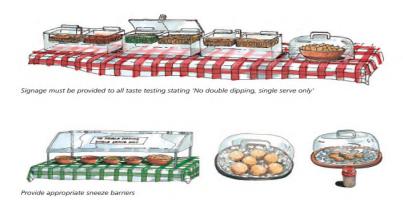

# Temporary food stall checklist

Event:	Date:
Food Stall Team Leader:	Contact:

Licence	Food Safety Supervisor & Food Handlers Skills & Knowledge	
Current temporary food licence obtained?	Nominated Food Safety Supervisor certificate submitted to Council	
Licence displayed to the public?	All Food handlers have food safety knowledge & skills?	
Stall Structure & Equipment	Hand Washing Facilities	
Walls (3 Sides), roof, pegs/sandbags	20 L water container with potable water, labelled "hand washing only"

### Animal and petting zoo minimum infection control standards

Event organisers and exhibit operators must notify Council of an animal contact exhibit. Details of the proposed animal contact are required at least 10-business days prior to an event to allow an Environmental Health Officer to assess the suitability and compliance against the 'Animal Contact Guidelines – reducing the risk to human health 2014'.

(https://www.health.qld.gov.au/ data/assets/pdf file/0023/444371/zoo-guidelines.pdf)

This assessment is to ensure that visitors coming into contact with animals have a reduced risk of contracting an infection from the animals or an associated enclosures and bedding materials.

Preventing illness in animal contact areas

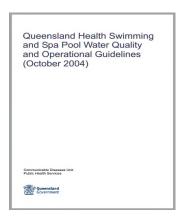

### Recreational pool water quality and operational standards

Event organisers and operators of temporary recreational water activities, such as inflatable water parks, will need to notify Council of their business activity prior to allowing access to the public. As part of the notification process, operators will need to demonstrate to Council their ability to effectively manage the quality of water at the facility throughout the duration of operation to ensure safe bathing is provided to users.

Whilst there are no specific state regulations in Queensland pertaining to the water quality of pools or spas, the *Public Act 2005* states that a swimming pool or spa pool must not pose a public health risk. This can be achieved by demonstrating compliance with the Swimming and Spa Pool Water Quality and Operational Guidelines.
