

RESIDENTIAL WATER RESTRICTIONS

- » Hand held hoses are permitted between **4pm and 9am** the next day, but must have a water efficient trigger nozzle.
- » Irrigation systems (sprinklers, drippers, soaker hoses) are permitted on Wednesdays, Fridays and Sundays between **4pm and 9am** the next day only.
- » Washing windows and cleaning paved or concrete surfaces, external walls or public facilities is permitted at any time but only with a water efficient, high pressure device (eg Gerni).
- » Boat motor and trailer flushing is permitted at any time according to manufacturers specifications.
- » Topping up swimming pools, spas and water features is only permitted between **4pm and 9am** the next day and must be monitored at all times.
- » Vehicle and boat cleaning is permitted at any time with hand-held hoses (fitted with a water efficient trigger nozzle).

For full details on residential and commercial restrictions, visit: frasercoast.qld.gov.au/water-restrictions
