

Fraser Coast Waste – Guide for Residents

Kerbside Waste and Recycling Collection

A Standard Waste Service consists of a 240L waste bin serviced weekly and a 240L recycle bin (yellow lid) serviced fortnightly. Bin/s must be on the kerbside by 6.00 am on the day of collection. Please contact Council if you are unsure of your collection day. All wheelie bins remain the property of Fraser Coast Regional Council and should not be used for any other purpose or removed from the assigned property.

Missed Service

If your bin is missed, please contact Council and arrangements will be made to service your bin. Please contact Council if you are unsure of your service day.

Stolen Bins

If your wheelie bin has gone missing, contact Fraser Coast Regional Council and we will deliver a replacement bin.

Damaged Bins

If your wheelie bin has been damaged or a part of it is missing (ie. a wheel) contact Fraser Coast Regional Council to arrange for repair or replacement of your damaged bin.

Services for the Infirm or Invalid

Upon application and approval, Council will provide assistance to those people who are not able to get their wheelie bin placed out for collection. Contact Fraser Coast Waste for further information.

New Services

Please contact Council when you are ready to receive your bins and delivery will be arranged.

Ownership

The waste removal bins are the property of Fraser Coast Regional Council and must be left at the property upon leaving. **DO NOT** take the wheelie bins with you, even if you are only moving within the city.

Green Waste

Domestic green waste can be taken to any of Council's landfill or transfer stations for disposal free of charge, for loads up to 4m³. Tree branches must be no more than 400 mm in diameter or 1200 mm in length. Please bag grass clippings if you are placing in your WASTE bin only, however we do recommend you take all green waste to a waste facility to avoid disposal to landfill.

Organic Composted Mulch

Council produces a quality clean Organic Composted Mulch from the green vegetation that is left at the waste disposal facilities. Mulch prices can be obtained from all sites or by contacting Fraser Coast Regional Council.

Reuse & Recycle Market Centre -Sales

A Reuse & Recycle Market Centre is situated at the Fraser Coast Recycling Centre, Hervey Bay and the Maryborough Recycling Centre, Maryborough. Market days are, Tuesday Thursday and Saturday in Hervey Bay and Wednesday, Friday and Sunday in Maryborough. Both centres are open for sales from 8.00 am to 4.00 pm on each of their open days.

Recycling Facilities – Drop Off

Facilities are available at most Council Waste Facilities for the drop off of recyclable items. No fees are charged for recycling materials taken to any

of Council's Waste Facilities. Goods and materials for recycling can be dropped off during normal operating hours at each of these sites. You'll be amazed at what you can recycle, to find out more contact Council.

Educational Tours of Materials Recovery Facility

Tours of Council's Material Recovery Facility are welcome and can be arranged by appointment. Groups can come and see first-hand where kerbside recycling goes to be sorted as well as learn the

importance of waste minimisation and how to recycle on the Fraser Coast. Excellent for community groups and school groups, all tours are flexible and can be catered to your specific needs. Tours can also be extended to incorporate the Fraser Coast Recycling Centre to get the big picture and see what other recycling opportunities are available to residents. Contact Fraser Coast Regional Council for more details.
