MISCELLANEOUS MATTERS THAT MAY APPLY TO DEVELOPMENT APPLICATIONS

Combined applications (involving more than one type of development)

Fees for combined applications are to be the sum of those fees that would have been required in the event of a separate development application being lodged for each type (e.g. material change of use, reconfiguring a lot, building work etc.) Where an application involves more than one type of land use, then the fee is to be based on the highest land use fee.

If a request for a concurrence agency referral is lodged concurrently with an MCU (material change of use) or BPS (building works assessable against a planning scheme), the amount payable is to be based on the highest land use fee.

Application for Mixed Use Development

Fees for this application shall be the sum of the primary use fee plus 50% of the fees for each type of other use (e.g multiple dwellings, restaurants or shops = fee for multiple dwelling plus 50% of the fees for the restaurant or shops) only.

Additional fees for expert advice and/or assessment of technical reports by Council-engaged consultants/specialists

Where assessment by external consultants having expertise specific to a particular proposal is required the applicant shall pay the cost of the external consultants. The cost must be paid prior to the delegates or Councils final determination of the application.

Additional fees for Fraser Island – Inspections and site visits

The additional fees have been based on the cost of travel by the most reasonable and practical transport means. Council officers will endeavour to minimise these costs by organising multiple inspections wherever possible.

Use not specifically identified in the fee schedule and/or unusual circumstances

Where an application involves a use not specifically provided for and the use or application could not reasonably be included in a category that is provided in the schedule of fees and charges, the Executive Manager Planning and Growth shall determine the relevant fee. This is to be based on an estimated fee to cover the total cost for Council to assess and determine the application.

WIDE BAY WATER AND WASTE SERVICES DIRECTORATE

REGULATION AND WASTE SERVICES

Certain waste types are not acceptable at some sites. "Acceptable" means approved for acceptance at a site by the Executive Manager Waste Services. See individual site information sheets for detail.

All waste charges are measured as follows unless otherwise specified:

- WEIGHBRIDGE SITES - rate per tonne or part thereof unless otherwise specified.
- NON-WEIGHBRIDGE SITES - rate per cubic metre or part thereof, unless otherwise specified.

Waste disposal charge concessions may apply for not for profit and community groups subject to Council terms and conditions.

DOMESTIC AND COMMERCIAL WASTE (Vehicle GVM less than 4.5 tonne)

Excludes specific and regulated waste types.

Waste delivered in vehicles over 4.5 tonne GVM, or in trailers exceeding the standard trailer dimensions will be charged on a weighed or waste volume basis.

Loads containing up to 2 passenger or 4x4 tyres; and/or one mattress will not incur additional individual charges for these items. Loads containing more than 2 passenger or 4x4 tyres and/or more than 1 mattress will incur additional charges.
