3.3.1 KINGFISHER PARADE TOOGOOM REVETMENT SEAWALL LEVY

RESOLUTION (Darren Everard/Denis Chapman)

- (a) That pursuant to section 94 of the *Local Government Act 2009* and section 94 of the *Local Government Regulation 2012*, Council make and levy a special charge (to be known as the "Kingfisher Parade Toogoom Revetment Seawall Levy") of \$421.33 per lineal metre, on all rateable land to which the overall plan applies to provide protection from sea water owing to the construction and maintenance of the revetment seawall.
- (b) The overall plan for the Kingfisher Parade Toogoom Revetment Seawall Levy is as follows:
 - (i) The service, facility or activity for which the plan is made is for funding the cost to Council for seawall construction to provide shoreline protection from sea water owing to the construction and maintenance of the revetment seawall.
 - (ii) The rateable land to which the plan applies is all rateable land on Kingfisher Parade, Toogoom, between and including Property No. 48 and Property No. 80. For clarity, properties subject to the special charge fall within the area delineated on the plan below - Kingfisher Parade, Toogoom revetment seawall benefit area.

Plan: Kingfisher Parade Toogoom Revetment Seawall benefit area

- (iii) The estimated cost of carrying out the overall plan is the lesser of the actual costs to Council or \$1,681,687.

The estimated costs may change dependent on the type of shoreline protection measure implemented, ongoing maintenance and significant ongoing or additional necessary maintenance costs may be identified during the lifetime of the measure, and may also be subject to costs recovery at a future unspecified date or event (e.g. a storm event that exceeds the design specification of the measure).
- (iv) The estimated time for carrying out the Overall Plan is ten years from 1 July 2014 to 30 June 2024
- (c) The Kingfisher Parade Toogoom Revetment Seawall Levy is for services, facilities and activities that have a special association with the rateable land because-
 - (i) The land or occupier specially benefits from the seawall construction which provides shoreline protection from sea water owing to the construction of the revetment seawall.

Additionally, the special charge is calculated based on total metres of property frontage as per the following formula and subsequent table;

$\frac{\text{Total construction costs and all associated costs plus interest}}{\text{Total length of seawall}}$	x Total number metres of property frontage

3.4.1 WASTEWATER CHARGES

RESOLUTION (David Lee/Denis Chapman)

That pursuant to section 94 of the *Local Government Act 2009* and section 99 of the *Local Government Regulation 2012*, Council make and levy wastewater utility charges, for the supply of wastewater services by the Council, as follows:

Basis of charge

Wastewater charges are determined to recover the cost of Council providing the infrastructure and the cost of operating and maintaining the wastewater system, including a commercial return on Council's commercial business unit in respect of all land and premises in the Local Government wastewater service area.

A wastewater charge will be levied on land, both vacant and occupied, that Council has or is able to provide with wastewater services, whether occupied or not.

A charge will be set for each residential dwelling and residential unit (under the *Body Corporate and Community Management Act 1997* (QLD), or another Community Titles Act), that are connected to Council. Where wastewater services are provided to the common property of scheme land within the meaning of the *Body Corporate and Community Management Act 1997* (QLD), and the services are available to the public, the body corporate shall be levied a charge on each service or each lot to be levied by lot entitlement.

3.4.2 WATER CHARGES

RESOLUTION (Phil Truscott/Zane O'Keefe)

That pursuant to section 94 of the *Local Government Act 2009* and sections 99 and 101 of the *Local Government Regulation 2012*, Council make and levy water utility charges, for the supply of water services by the Council, as follows:

Basis of charge

Water charges are determined on a user pays basis to recover the cost of Council providing the infrastructure and the cost of operating and maintaining the water supply system, including a commercial return on Council's investment, in respect of all land and premises in the water area of the Local Government area.

The charges will apply to land within the Water Area in the Local Government area, including but not limited to residential and commercial users, and individual 'lots' and the body corporate within the meaning of the *Body Corporate and Community Management Act 1997*. Water access charges will apply to properties whether occupied or not.

The two part charging structure consists of an annual access charge and a water consumption charge.

- an access charge for all land within the Water Area; and
- a charge for each kilolitre of water consumed.
- An access charge for vacant land is also applied to each separately subdivided parcel of vacant land within the water area which is not currently connected to the reticulated water supply system and where a connection is able to be provided.

Large commercial/Industrial

This charge applies to large commercial and industrial developments being large shopping centres, major industry and State Government properties, excluding schools.

A water access charge in this category shall be levied according to the access size of each water supply service generally in proportion to the flow capacity of each water connection. The charge shall consist of whichever is the greater of:

- (i) the sum of the water access charges that apply to each of the individual pipe access size connections to the property; or
- (ii) a water access charge, for each separate occupation, tenancy or commercial activity.

The amount of the water access charge calculated for pipe size shall be that which applies to the actual pipe access size of the water service connection to the property. If the actual pipe access size of the water service connection to the property is not specified in the table of water access charges, the water access charge for the next lowest pipe access size shall apply.

Where the pipe access size or the number of the water service connection/s is/are in excess of the capacity required at a property as a result of changed circumstances or use at that property, the water access charge/s will continue to apply until the pipe access size or the number of the water service connection/s is/are reduced as approved by Council at the property owner's expense.

3.4.3 WASTE CHARGES

RESOLUTION (Darren Everard/Daniel Sanderson)

That pursuant to section 94 of the *Local Government Act 2009* and section 99 of the *Local Government Regulation 2012*, Council make and levy waste charges, for the supply of waste services by Council, as follows:

Basis of charge

Waste charges are levied each financial year for the purpose of defraying the costs of operating, maintaining and managing the collection and disposal of waste in respect of all rateable properties in the defined waste collection area.

The costs incurred in the operation and maintenance of all of the waste management functions of Council arising from the provision of waste services will primarily be funded by waste charges. The proceeds from the charges will fund the acquisition, operation and maintenance of Council landfill's and transfer stations, its recycling activities, and waste transportation costs.

Council will levy a waste charge on each rateable property. Where there are one or more structures on land capable of separate occupation, a charge will be made for each tenancy.

Waste services not provided by Council are not included in the calculations for the charges to be applied.

In respect to land within the defined waste collection area, one or more of the following charges will apply:

- Standard waste service charge
- Additional waste service charge
- Combined waste service charge
- Individual waste service charge
- Commercial waste service charge

Waste charges

- a) A **Standard Waste Service Charge** per residential unit or a **Combined Waste Service Charge** (whichever is the greater) will apply to all rateable properties within the general rate category groups of Residential, Primary Production, and Multi-Residential – Flats/Residential Resorts/Other that are able to be provided with an equivalent number of waste services. If the removal of a waste service is requested the charge will continue to apply.
Additional Waste Service Charges will apply where additional services are requested.
 - b) An **Individual Waste Service Charge** will apply to all rateable properties within the general rate category groups of Vacant Land and Multi-Residential – Retirement Villages/Residential Parks/Residential Services that are provided with a waste service.
 - c) A **Commercial Waste Service Charge** will apply to all rateable properties within the general rate category group Commercial/Industrial and all non-rateable
-

commercial properties that are provided with a waste service.

The following commercial properties are excluded from the commercial waste service charge and will be levied an Individual Waste Service Charge:

- Nursing homes and private aged care
- Boarding houses
- Purpose Built Student Accommodations - off campus, rooming accommodations
- Caravan parks
- A mixed-use flat/apartment e.g. a combination of holiday units for rent, or businesses and residential units
- And other properties as determined by The Department of Environment and Science

- d) One off service charge additional charges will be made for any extra waste service provided by Council.
- e) Where a bin service is provided for part of a financial year, the service charges will be levied on a pro-rata basis

Waste Management Utility Charge

The Waste Management Utility Charge for 2020/21 will be \$105.00, and will be used for the purposes of raising revenue for Council to provide waste infrastructure across the region to facilitate waste operations in an environmentally acceptable manner whilst being economically responsible, to be levied on rateable land as follows:

- (a) the Waste Management Utility Charge is included within the standard waste service charge and combined waste service charge for all rateable properties within the general rate category groups of Residential, Primary Production, and Multi-Residential – Flats/Residential Resorts/Other which are within the defined

waste collection area, unless the property is deemed to be unserviceable;

- (b) the Waste Management Utility Charge will be levied per residential unit for all rateable properties within the general rate category group of Multi-Residential – Retirement Villages/Residential Parks/Residential Services, whether or not provided with a waste service (excluding land which is levied the Fraser Island Garbage Charge);
- (c) the Waste Management Utility Charge will be levied for all rateable properties within the general rate category group of Commercial/Industrial, whether or not provided with a waste service, excluding land which is levied the Fraser Island Garbage Charge, in accordance with the below table;

Type
<u>Commercial properties</u> – a charge for each separate occupation, tenancy or commercial activity
<u>Marina berths</u> – a charge for every 7 or part thereof marina berths

3.5.5 ECONOMIC DEVELOPMENT

RESOLUTION (David Lee/Denis Chapman)

That pursuant to sections 120, 121 and 122 of the *Local Government Regulation 2012*, a concession for rates and charges may be granted to ratepayers on a case-by-case basis as adopted by Council resolution to encourage the economic development of all or part of the local government area.

Carried Unanimously

3.5.6 LIMIT INCREASES IN WATER AND WASTEWATER CHARGES

RESOLUTION (James Hansen/Zane O'Keefe)

That pursuant to sections 120, 121 and 122 of the *Local Government Regulation 2012* to grant a concession to all ratepayers whose combined water and wastewater utility charges, excluding water consumption and trade waste charges, levied by Council for the 2020/21 financial year are more than 20% higher than the equivalent charges levied during the 2019/2020 financial year. A rebate will be granted to limit increases

in the combined water and wastewater utility charges, excluding water consumption and trade waste charges, levied on those ratepayers in the previous financial year to a maximum of 20%. Council grants this concession on the basis that requiring ratepayers to pay an increase in the combined water and wastewater charges, excluding water consumption and trade waste charges, of more than 20% will cause hardship.

For land to which this limitation applies, this limitation will cease to apply effective from the start of the billing period following;

- (a) the transfer of ownership of the land, or
- (b) the change to the characteristics of the land which results in a change to the water or wastewater category or services applicable to the land.

Carried Unanimously

3.5.7 CORONAVIRUS RATES RELIEF

RESOLUTION (Phil Truscott/Paul Truscott)

That pursuant to sections 120, 121 and 122 of the *Local Government Regulation 2012* to grant a one-time rebate of \$100.00 to rateable land which is categorised in section 3.1 of this report as one of the following differential general rate categories as at the date of issue of the first rate notice of the 2020/21 financial year;

- (a) Category 1a – Residential Owner Occupier – Urban
- (b) Category 1b – Residential Owner Occupier – Non-Urban

Council grants this concession on the basis that the payment of the rates or charges will cause hardship, as a consequence of the ongoing impacts of the COVID-19 pandemic, to the land owners who are members of the above class of ratepayers.

The rebate will be applied to Council's rate notices issued for the period 1 July 2020 to 31 October 2020.
