

River Heads Road Speed Reduction

BACKGROUND:

Council has received a number of requests for a reduction in the speed limit on River Heads Road, particularly in the vicinity of the Maddever Road intersection.

In view of these representations, the Speed Management Committee, which form part of the Traffic Advisory Committee recently gave consideration to a speed reduction for River Heads Road from Booral Road to just south of Maddever Road.

The speed reduction in River Heads road was also discussed with Council at a briefing session in September and Council agreed to reduce the speed limit to improve safety for all road users.

In order to address the increased volumes of traffic on River Heads Road and to improve the gap selection concerns from the side roads of Sea Eagles Road, Allerton Road and Maddever Road, the Speed Management Committee endorsed the reduction of the speed limit from 100km/hr to a 80km/hr speed limit for this section of River Heads Road.

SIGNAGE:

In line with this decision, signage, as detailed on the plan, indicating the new 80km/hr speed limit was recently erected in River Heads Road from Booral Road to just south of Maddever Road.
