

Bituminous Reseals— Urangan, Booral, Urraween, Walligan, Pacific Haven, Oakhurst, Tinana, Granville, Gundiah and Tiaro

PROJECT:

This project provides for the bitumen resealing of a number of streets in Urangan, Booral, Urraween, Walligan, Pacific Haven, Oakhurst, Tinana, Granville, Gundiah and Tiaro. (A full list of the locations is attached).

A bitumen reseal involves spraying a thin layer of bitumen over an existing old road surface. The bitumen seal protects the underlying road pavement materials from weather damage. A stone aggregate is then spread on top and rolled in to provide the necessary skid resistant surface texture. Bitumen seals are used to seal newly constructed work (gravel) and extend the life of an existing road by 8-14 years depending on traffic loading.

Prior to the appointed contractor coming on-site to perform the re-seal works, Council's Operations area will be undertaking pre-seal works in areas where this is required which will include the repair of failures and blemishes in the road surface, replacement of the kerb and channel and bicycle grates, herbicide spraying and the trimming of trees.

PROJECT ESTIMATE:

\$1.95M

TRAFFIC MANAGEMENT:

It is likely that there will be delays in the flow of traffic on your street whilst the works are completed; however, the initial pre-seal works and bitumen reseal works should only impact residents for a short period of time.

INDICATIVE PROJECT MILESTONES

INDICATIVE PROJECT MILESTONES	
July/Sept 22	Pre-seal works
Sept/Oct 22	Re-seal tender period
Nov/Dec 22	Re-seal construction period
Jan 23	Project completion

Note: Project milestones are subject to contract and weather and may change.

Bitumen Reseal Areas

Street Name	Suburb	Location
Hervey Bay		
Garden Dr	Urangan	Between ROBERT ST and ELIZABETH ST
