

Road Pavement Replacement —St Andrews Drive, Namwen Court and Palm Meadows Place

PROJECT:

This project provides for road pavement replacement works in St Andrews Drive, Namwen Court and Palm Meadows Place.

This project was identified for completion as part of Council's road reconstruction prioritisation process due to the road's current condition level.

PROJECT ESTIMATE:

\$550,000

PROJECT SCOPE OF WORKS:

- Profiling of existing pavement to 110mm depth;
- Installation of temporary ramps at driveways;
- Bitumen and asphalt seal.

The traffic management plan that will be put in place for the duration of the construction period will allow for a full road closure (local traffic only). Whilst the Contractor will endeavour to maintain access to properties whilst the works are completed, there may be short periods of time where access will be temporarily restricted whilst works are completed in the vicinity of directly adjacent properties.

INDICATIVE PROJECT MILESTONES
