Pursuant to section 94 of the *Local Government Act 2009* and section 80 of the *Local Government Regulation 2012*, the differential general rate to be made and levied for each differential general rate category and, pursuant to section 77 of the *Local Government Regulation 2012*, the minimum general rate to be made and levied for each differential general rate category, is stated in the table below.

To calculate your general rate, the land valuation (as issued by the Department of Natural Resources, Mines, and Energy) is multiplied by the category's cents in the dollar as tabled below. Where the calculated amount is less than the minimum rate, the minimum rate is applied.

If you do not agree with the rating category shown, you must give Council written notice of your objection within 30 days of the issue of the rate notice nominating the rating category the land should have been included in.

The only grounds for objection are that your land should have been included in another rating category at the date of issue of the rate notice. Giving notice of objection will not, in the meantime, affect the levy, the recovery of rates and the payment of rates by the due date. If the land is classified into another category the rates will be adjusted.

If the objection is denied, an appeal to the Chief Executive Officer's, or delegate's, decision can be lodged with the Land Court under section 92 of the *Local Government Regulation*.
