

Water Main Replacement Works – Denmans Camp Road between Boat Harbour Drive and Torquay Road

PROJECT:

This project provides for the replacement of the water main in Denmans Camp Road between Boat Harbour Drive and Torquay Road. These works are part of a three-stage delivery plan for road pavement rehabilitation works in this section of Denmans Camp Road.

Water main replacement works will be completed in the first stage of works prior to the relocation of a gas main. The final stage of works will include full road reconstruction.

This project was identified for completion as part of Council's road reconstruction prioritisation process due to the current road condition.

PROJECT ESTIMATE:

\$3.5M (Stages 1-3)

PROJECT STATUS:

- Stage 1 – Water Main Replacement Works**

Stage 1 works provides for the replacement of the existing water main in Denmans Camp Road between Boat Harbour Drive and Torquay Road. As noted on the attached plan, the water main replacement works will occur on the eastern and western footpath areas of Denmans Camp Road from Boat Harbour Drive to Parkway Drive and then on the western side only from Parkway Drive to Torquay Road. A number of road crossings will also occur as part of these works. These works are planned to commence in July 2023. Denmans Camp Road will remain open during the water main replacement works, but will be subject to localised traffic control.

PROJECT STATUS (CONTD):

- Stage 2 – Gas Relocation Works**

Stage 2 of the works includes the relocation of existing gas lines in Denmans Camp Road.

As noted on the attached plan, the gas main relocation works will occur on the eastern footpath areas of Denmans Camp Road from Boat Harbour Drive to 30 Denmans Camp Road with further works planned in the vicinity of 195 Torquay Terrace. These works are planned to be completed in the first half of 2024.

- Stage 3 – Pavement Rehabilitation Works**

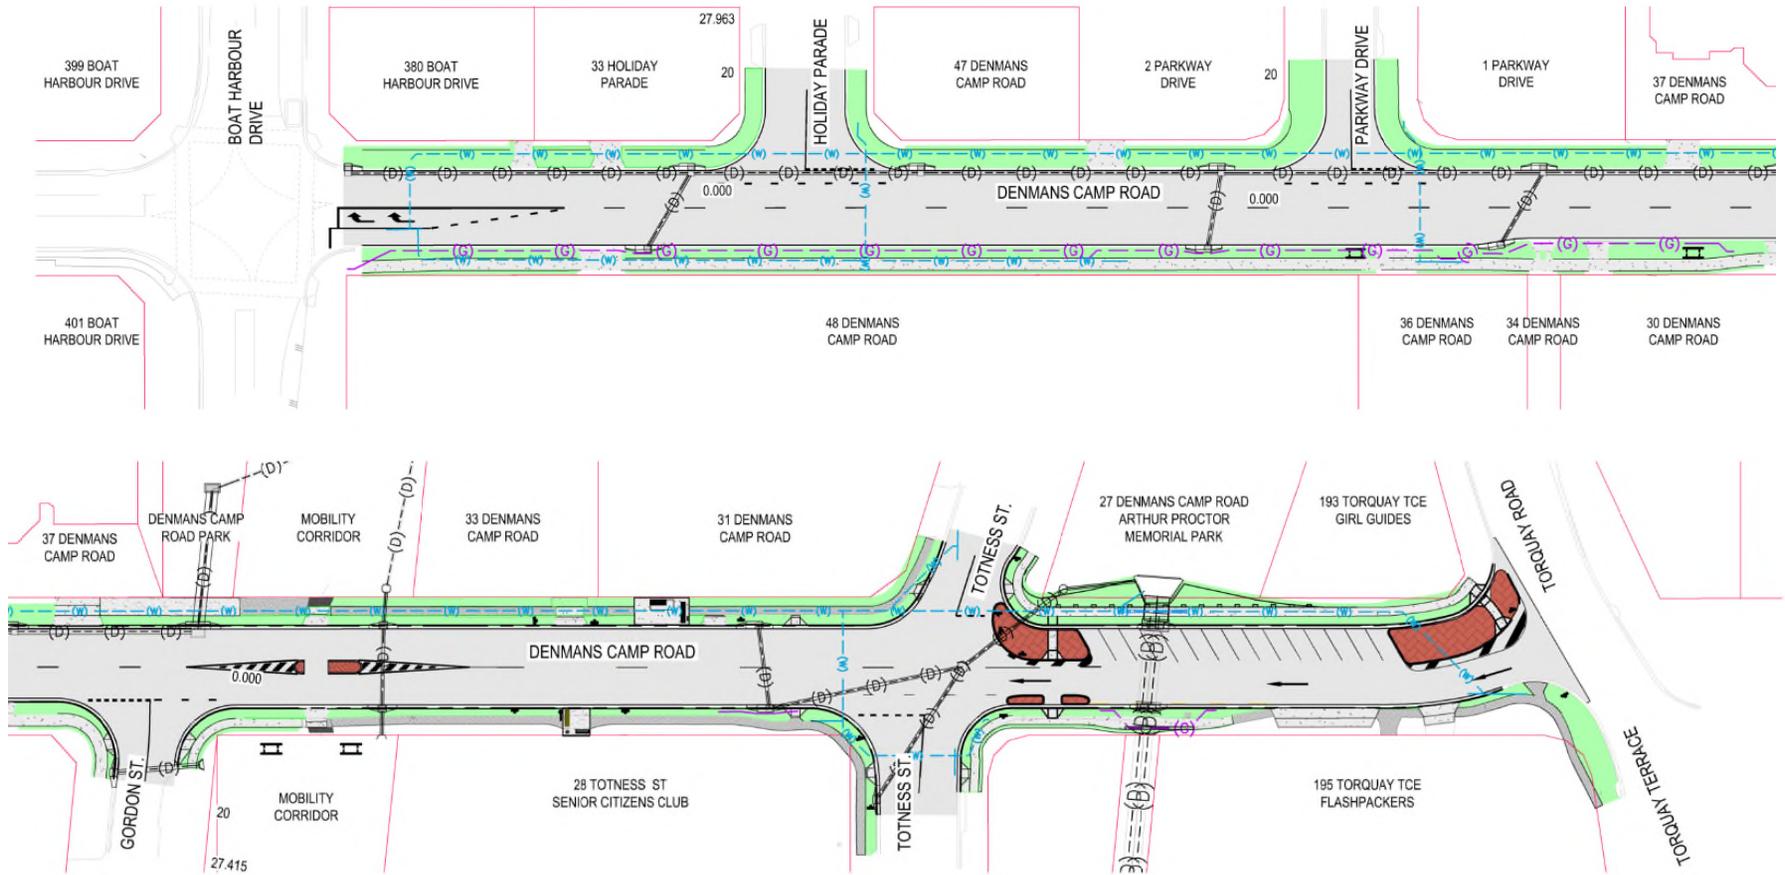

The final Stage 3 pavement rehabilitation works will be programmed following completion of the water main replacement and gas relocation works. At this point in time these works are anticipated to commence in the second half of 2024. The design associated with these works is currently being completed and once a design consultation plan relating to these works is available further consultation will occur with residents in this area relating to this stage of the works.

INDICATIVE PROJECT MILESTONES – STAGE 1 – WATER MAIN REPLACEMENT WORKS

June 2023	Final Design
June/July 2023	Tender Period
August/November 2023	Construction Period
December 2023	Project Completion

Note: Project milestones for the Stage1 works are subject material supply and weather and may change.
