Part 1 Preliminary

1 Short title

This local law may be cited as *Local Law No. 6 (Bathing Reserves) 2011*.

2 Purpose and how it is to be achieved

- (1) The purpose of this local law is to enhance the public safety and convenience of bathing reserves placed under the local government's control¹ through orderly management and regulation of activities within these reserves.
- (2) The purpose is achieved by providing for—
 - (a) the designation and management of safe, supervised bathing areas within bathing reserves; and
 - (b) the regulation of conduct and the use of aquatic equipment within bathing reserves; and
 - (c) the assignment of responsibility to life-saving clubs for managing, patrolling and supervising bathing reserves; and
 - (d) the appointment and powers of authorised persons to manage and enforce the regulation of conduct within bathing reserves.

3 Definitions—the dictionary

The dictionary in the schedule defines particular words used in this local law.

4 Relationship with other laws²

- (1) This local law is to be read with *Local Law No. 1 (Administration) 2011*.
- (2) However, a reference to an authorised person in *Local Law No. 1 (Administration) 2011* does not include an authorised person appointed under this local law.

Part 2 Bathing reserves

Division 1 Designation of bathing reserves

5 Signs indicating existence of bathing reserve

- (1) If the local government proposes to regulate the use of a bathing reserve under this local law, the local government must erect and maintain signs (*reserve signs*) in prominent positions on or adjacent to the foreshore to indicate the existence of the bathing reserve.
- (2) Reserve signs must be erected at the lateral boundaries of the bathing reserve indicating the position of the boundaries.
- (3) The signs must face both seawards and shorewards.

¹ As declared by gazette notice under the Act.

² This local law and any subordinate local law made under it do not apply to the extent of any inconsistency with a law of the State or the Commonwealth. See the Act, section 27.

Division 2 Bathing areas

6 Bathing areas

- (1) An authorised person may mark out an area (a *bathing area*) within a bathing reserve.
- (2) The area selected as a bathing area must be the part of the bathing reserve that is, in the authorised person's opinion, the safest and most suitable for bathing in view of the prevailing conditions.
- (3) The bathing area is marked out by placing 2 patrol flags at different points on or adjacent to the foreshore.
- (4) The bathing area consists of the area defined by—
 - (a) an imaginary line between the 2 patrol flags; and
 - (b) lateral boundaries extending seaward from each patrol flag at right angles from the imaginary line; and
 - (c) an outer boundary parallel to, and 200 metres to the seaward side of, the imaginary line.
- (5) Where the boundary of the bathing reserve is less than 200 metres to the seaward side of an imaginary line between the 2 patrol flags, then the boundary of the bathing area shall be the outer boundary of the bathing reserve.
- (6) An authorised person may, in view of prevailing conditions, change the boundaries of a bathing area by changing the position of the patrol flags.
- (7) Patrol flags must not be exhibited if the bathing area is not under surveillance by a life-saving patrol.

7 Flags to inform bathers about prevailing conditions

- (1) This section applies if—
 - (a) an authorised person has marked out a bathing area under section 6; and
 - (b) in the authorised person's opinion, there are potentially hazardous conditions prevailing within the bathing area.
- (2) The authorised person must exhibit in a prominent position on or adjacent to the foreshore a yellow flag warning bathers of the potentially hazardous conditions.

8 Closure of bathing reserve

- (1) An authorised person may close a bathing reserve or part of a bathing reserve to bathing by erecting a red flag in a prominent position on or adjacent to the foreshore.³

Example—

- *The authorised person may close the bathing reserve if the prevailing conditions pose a risk to the lives of members of the public bathing in the reserve.*

³ Although this local law does not require strict compliance with Australian Standard No. 2416 (Design and Application of Water Safety Signs), that standard should, where practicable, be complied with.

- (2) If patrol flags marking out a bathing area have been placed in position, the patrol flags must be removed on closure of the bathing reserve or a part of the bathing reserve in which the bathing area is situated.
- (3) A person must not bathe in a bathing reserve or part of a bathing reserve while the reserve or the relevant part of the reserve is closed to bathing.
Maximum penalty for subsection (3)—20 penalty units.

- (3) An area set apart under this section, and the restrictions applying to access, must be clearly indicated by signs erected in prominent positions on the bathing reserve.

10 Reservation for competitions and special occasions

- (1) For the purposes of *Local Law No.1 (Administration) 2011*, section 5(b), it is a prescribed activity⁴ to—

 - (b) use of any part of a bathing reserve for the conduct of any 1 or more of the following—
 - (i) a surfing competition;
 - (ii) a life-saving competition;
 - (iii) another aquatic activity or competition.
- (2) Where an approval for an activity mentioned in subsection (1) permits restrictions on access to any part of a bathing reserve, the area set apart for the activity and the restrictions applying to access must be clearly indicated by signs erected in prominent positions on the bathing reserve.
- (3) A person must not contravene a restriction on access imposed under this section.
Maximum penalty for subsection (3)—20 penalty units.

⁴ *Local Law No. 1 (Administration) 2011*, section 6, creates an offence for a person to undertake a prescribed activity without a current approval granted by the local government. Section 7 requires that the approval be obtained under part 2 of that local law.
