

Estate Name: _____

Stage No. (if applicable): _____

Council Reference No: _____

I, _____ being a Registered Professional Engineer registered under the Provision of the Professional Engineers Act 2002 (as amended) and having been commissioned to carry out the supervision of the works comprising of: ‘

do hereby certify that:

the inspections, testing and reports to be completed in accordance with Council’s requirements have been completed and insofar as such inspections, and tests have revealed the works have been completed, in accordance with the design drawings as approved for construction by Council and our project specification and any other requirements as required by the conditions of approval, Council’s Local laws, policies and codes, the relevant legislation and Australian Standard Codes of Practices and the results of these inspection, tests and reports have been found to be satisfactory. I/We acknowledge that acceptance of the works will be issued in reliance upon this certificate.

In addition we have verified that all manufactured materials have been stamped as being in compliance with the relevant specification and all inspection and testing reports and results for the project have been provided to Council.

All documentation as defined in Council’s Planning scheme policy for development works for the completed works have been submitted.
