Enclosure

An enclosure for the dog must be maintained at or on the property and must be childproof and stop the dog from leaving the enclosure. The enclosure must:

The walls must also prevent the dog, or part of the dog, from protruding over, under or through the enclosure. The walls may include a perimeter fence for the relevant place or an exterior wall of a structure if it complies with all other requirements of the enclosure,
- Include a weatherproof sheltered area appropriate for the dog
- Include a gate which must be childproof, self-closing and self-latching; and complies with the requirements for the enclosure and which must not be a driveway gate or other vehicle access gate.

The enclosure may have another gate that is not self-closing and self-latching if it is not a driveway gate or vehicle gate and complies with requirements for the enclosure and is kept securely locked whenever it is not in immediate use.
