Full Details
ATTENTION MICHAEL COURTNEY
Contaminated Land - General 17/03/17 - JK - s. 47(3)(b) rang in regards to the above property. He is informing us that apparently there is large amounts of car oil spilling from the property onto the road. He would like you to investigate it before further rain washes it away.

Resolution
7/04/17 E.G.- EHO Emma Guy conducted a site visit to investigate. No evidence of an oil spill was detected at the subject property. The complainant was updated on the outcome of Council's investigation. NFA required by EH in relation to this customer request.

ENVIRONMENTAL PROTECTION ACT 1994
Certificate of Registration

Registration is hereby issued to:

PARKY'S PARTS
612 ALICE STREET
MARYBOROUGH QLD 4650

The anniversary day for the purpose of the Annual Return is: 15 SEPTEMBER 2009.
This registration certificate is a requirement of section 73F of the *Environmental Protection Act 1994* and authorises the registered operator to undertake the activity listed below at the following place, subject to the registered operator holding a current development approval for the activity on this site.

Licence Number:	EPA\08\0055
Relevant Activity/s:	Metal Recovery Motor Vehicle Workshop
Tradename:	PARKY'S PARTS
Property Address:	612 ALICE STREET MARYBOROUGH QLD 4650
Property Id:	Lot 2 M 20335
ACN/RBN:	
Contact Name:	

The particulars contained in the above schedule are those currently shown in Council's records. If incorrect, please notify Council's Environmental Health & Regulation on ☎ 1800 881 400 for amendment.

ANDY GAZE
EXECUTIVE MANAGER
ENVIRONMENTAL HEALTH & REGULATION

TAKE NOTICE: The granting of this registration certificate does not exempt the registered operator from the need to obtain such other approvals as may be required under other legislation.

1. The administering authority may cancel or suspend a registration certificate if—
 - a. the certificate was issued because of a materially false or misleading representation or declaration, made either orally or in writing; or
 - b. the registered operator is, after the issue of the registration certificate, convicted of an environmental offence; or
 - c. the operator has been given an annual notice and the notice has not been complied with.

2. Unless sooner suspended or cancelled, the registration certificate expires if:-
 - a. the registered operator (the **existing registered operator**) disposes of the operator's business to someone else; and
 - b. another registration certificate for the activity (the **new registration certificate**) is given to a person other than the existing registered operator

ANNUAL RETURN for Registration Certificate

Environmental Protection Act 1994 - Section 316

This form must be completed and submitted to Council each year by the holder of a registration certificate under Section 316 of the Environmental Protection Act 1994. Please ensure you have your registration certificate/environmental authority/decision notice handy as it will assist you in completing this form.

Examples have been given to assist you in completing this form. If insufficient space please attach additional information.

1. Registration Certificate Holder

Full Name: [REDACTED]

Trading As: PARKY'S PARTS

Responsible Person's Name: _____

Activity Address: 612 ALICE ST.

Current Registration Number: EP A10810055

2. Have any business activities changed since your last Annual Return?

Yes Please provide details on changes below

No Go to 3

• If you require more space, attach additional information.

3. Site specific conditions

(a) Are there any 'site specific conditions (notice of defects)' listed on your environmental authority or development approval?

Yes Answer (b) and (c) below

No Go to 4

Note: Check the conditions of your licence. Information may include for example: results of monitoring undertaken since the last Annual Return or an assessment report based on the monitoring conducted.

(b) Which 'site specific conditions (notice of defects)' have been completed?

Refer to licence or Defects Notice	Action taken to address condition
eg. Trade waste disposal to be arranged with Council	eg. 'I have made application for a trade waste permit.'

(c) Which 'site specific conditions (notice of defects)' have not been completed?

Refer to licence or Defects Notice	Action taken to address condition
Install a spray booth	eg. 'A spray booth has been ordered and will be in place by 1 October 2007'

Note: If site specific conditions have not been completed and you have not provided any information, please indicate your reasons for not providing the information, whether you intend to submit the information late or do not intend to submit the information at all.

4. Did a condition of your environmental authority or development approval require you to take any stated measures during the last 12 months?

Yes Please provide details on stated measures taken.

No Go to Section 5

Note: Check the conditions of your licence/development approval. Stated measures could include: submit an Environmental Management Plan, implement a stormwater management plan or an Integrated Environmental Management System, or install and commission a certain piece of pollution control equipment.

5. Since your last annual return, have you fully complied with the conditions of your environmental authority/development approval/licence and your general environmental duty?

Yes Go to Section 6 Certification

No Please provide a description of the non-compliant incident/s and remedial action undertaken in response to the incident/s, below.

6. Certification

I/We

Name of person signing the annual return

Being aware that it is an offence under Section 481 of the *Environmental Protection Act 1994* to provide false or misleading information, state that:

- i I am authorized to sign on behalf of the person (meaning the corporation or individual) holding the licence; and
- ii all information provided is true and complete; and
- iii I understand that information given within this Annual Return could become available to the public in accordance with the *Freedom of Information Act 1992* and *The Evidence Act 1977*.

Annual return for environmental authorities
Section 316 Environmental Protection Act 1994

Important Information for applicants

- This form must be completed annually by the holders of all licences or integrated authorities under the Environmental Protection Act 1994 (EP Act).
- Please label all attachments alphabetically (e.g. "Attachment A" etc.).
- The guidance information provided on the left side of this document is intended to assist you to complete the form. However, if you experience difficulties completing the form please contact Council's Department of Environmental & Development Services.

FOR OFFICE USE ONLY		
Date received:	File Ref:	
Correct AA Yes <input type="checkbox"/>	Complete Form Yes <input type="checkbox"/>	Correct Fee Yes <input type="checkbox"/>
Entered By (sign):		(date):

The name of the environmental authority holder will be stated on the licence/integrated authority. Enter the full name.

If the environmental authority holder is not an individual, please nominate someone who is authorised to act on behalf of the organisation which holds the environmental authority (e.g. Director, CEO, or Manager). You must prepare all reports required as a condition of your environmental authority. For example, environmental management programs or implementation of a stormwater management plan etc. If you are required to prepare results as a part of the conditions on your environmental authority, please see the back of this form for an example of the preferred method of formatting and presenting that data.

All reports must be held in the same place and be available for inspection by the administering authority during business hours. You must forward the reports to the EPA on request or when the licence has either expired (provisional licence only), been surrendered (licence without development approval) only or cancelled.

Environmental Authority Licence Number: **1460000065**
Licensee: **Parkinson & Son's Pty Ltd, 612 Alice Street,**
Maryborough QLD 4650

Environmentally Relevant Activity: **Motor Vehicle Workshop & Metal Recovery**

SCHEDULE A LICENCE CONDITIONS

1.0 Conditions of Release

- 1.1 Contaminants must not be released to the environment where the release will or may cause environmental harm unless such release is authorised by this licence.

2.0 Noise

- 2.1 Noise emissions from the premises shall not cause environmental harm and shall not exceed maximum noise levels prescribed by an Environmental Protection Policy or an Environmental Protection Order.

3.0 Air

- 3.1 Odour and visible contaminants, including dust, smoke, fumes and aerosols must not be released to the environment in a manner that will or may cause environmental nuisance.
- 3.2 No incineration or open burning shall be carried out on site.
- 3.3 The servicing of air conditioning systems shall be carried out by an accredited service person or a person under the direct supervision of an accredited person in accordance with the Environmental Protection Act 1994.
- 3.4 The decommissioning, fitting, servicing, recovery and recycling of refrigerants shall be carried out to minimise the emissions of ozone depleting substances.
- 3.5 All solvents and fountain solutions shall be stored in secure sealed containers to prevent the discharge of volatile organic compounds.

4.0 Water

- 4.1 Only rainwater from uncontaminated areas shall drain directly into the stormwater drainage system.
- 4.2 The activity shall be conducted in a manner to prevent and/or minimise the contamination of surface stormwater runoff.
- 4.3 Wastewater and any other liquid waste, shall not be released to stormwater, groundwater or discharged directly to creeks, rivers, lakes or any other water bodies.
- 4.4 Wastewater and other liquid waste shall be discharged to the sewer in accordance with Council's Trade Waste Policy, or transported to an approved hazardous waste facility. The licensee must comply with the conditions of the Current Trade Waste Permit or conditions of an approved hazardous waste facility (if applicable).

5.0 Waste

- 5.1 Waste shall not be released to the environment which will or may cause environmental harm or nuisance unless such release is authorised by this licence.
- 5.2 All solid waste shall be removed to an approved waste disposal facility.
- 5.3 Liquid waste including trade waste shall be discharged to sewer or held on site until removed to an approved waste facility.
- 5.4 Engines and automatic transmissions should be drained of all waste oil before vehicles are placed in the storage yard.
- 5.5 Absorbent materials such as rags, kitty litter or sawdust should be on hand to clean up any spills.

6.0 Site Contamination

- 6.1 The premises are to be operated in such a manner as to minimise any land contamination.
- 6.2 All batteries are to be appropriately stored to prevent any potential spillage or contamination.
- 6.3 Waste oil, paint tins, acid drums etc shall be stored in a covered bunded area or an alternative area that will prevent the escape of any spills from the workshop.
- 6.4 Absorbent materials such as rags, kitty litter or sawdust are to be kept on hand to clean up any spills.

7.0 Light

- 7.1 Lighting used to illuminate any areas of the premises shall be angled or shaded so that the light issuing there from does not directly illuminate any nearby premises or roadways in such a manner as to constitute an environmental nuisance.

8.0 Source Monitoring

Inspections by Authorised Persons

- 8.1 At all reasonable times and to the satisfaction of an authorised person, the holder of the environmental authority must provide monitoring facilities and maintain access to the monitoring positions for authorised person the check compliance.

9.0 Procedures

- 9.1 Practices and procedures, relating to the prevention of environmental harm or nuisance during normal operations and emergencies, must be documented and available at all times to persons engaged in the conduct of the activity within twelve (12) months of this licence taking effect.

10.0 Training

- 10.1 All persons engaged in the conduct of the activity must be trained in the practices and procedures relating to the prevention of unlawful environmental harm during normal operations and emergencies within twelve (12) months of this licence taking effect.

11.0 Notice of other duties

- 11.1 All flammable and combustible material is to be stored in accordance with the Dangerous Goods Safety Management Act 2001 and Australian Standard - AS 1940 (1993) - 'The storage and handling of flammable and combustible liquids'.
- 11.2 The holder of this licence is advised that notwithstanding this licence, there may be obligations at law under the Environmental Protection Act (for compliance with Environmental Protection Policies), Maryborough City Council Town Planning & Building requirements, the Contaminated Land Act and other obligations at law created by the Federal, State and Local Governments.

Environmental Authority Licence Number: 1460000065
Licensee: **Parkinson & Son's Pty Ltd, 612 Alice Street,
Maryborough QLD 4650**

Environmentally Relevant Activity: Motor Vehicle Workshop & Metal Recovery

SCHEDULE A LICENCE CONDITIONS

1.0 Conditions of Release

1.1 Contaminants must not be released to the environment where the release will or may cause environmental harm unless such release is authorised by this licence.

2.0 Noise

2.1 Noise emissions from the premises shall not cause environmental harm and shall not exceed maximum noise levels prescribed by an Environmental Protection Policy or an Environmental Protection Order.

3.0 Air

3.1 Odour and visible contaminants, including dust, smoke, fumes and aerosols must not be released to the environment in a manner that will or may cause environmental nuisance.

3.2 No incineration or open burning shall be carried out on site.

3.3 The servicing of air conditioning systems shall be carried out by an accredited service person or a person under the direct supervision of an accredited person in accordance with the Environmental Protection Act 1994.

3.4 The decommissioning, fitting, servicing, recovery and recycling of refrigerants shall be carried out to minimise the emissions of ozone depleting substances.

3.5 All solvents and fountain solutions shall be stored in secure sealed containers to prevent the discharge of volatile organic compounds.

Environmental Protection Act 1994 Environmental Authority

Environmental Authority Licence Number: 146000001

The Maryborough City Council in pursuance of the provisions of the Environmental Protection Act 1994 hereby grants an Environmental Authority.

To:-
Maryborough Crematorium Pty. Ltd.
Address:- 140 Adelaide Street, MARYBOROUGH QLD 4650

in respect of carrying out the environmentally relevant activity:-

Crematorium

Trading as: **Maryborough Hervey Bay Crematorium**

at:- Bruce Highway, MARYBOROUGH QLD 4650

This Environmental Authority is granted subject to the holder observing and complying with the provisions of the Environmental Protection Act 1994, the Environmental Protection Regulation 1998 and the attached schedule A.

This licence is conditional upon compliance with all other approvals, licences, and requirements of the Maryborough City Council and State and Federal Governments.

This licence takes effect fifteen (15) days from the date below and shall remain in force, unless sooner suspended or cancelled.

Dated this Nineteenth day of December 2002.

N E GORRIE
CHIEF EXECUTIVE OFFICER

4.0 Water

- 4.1 Only rainwater from uncontaminated areas shall drain directly into the stormwater drainage system.
- 4.2 The activity shall be conducted in a manner to prevent and/or minimise the contamination of surface stormwater runoff.
- 4.3 Wastewater and any other liquid waste, shall not be released to stormwater, groundwater or discharged directly to creeks, rivers, lakes or any other water bodies.
- 4.4 Wastewater and other liquid waste shall be discharged to the sewer in accordance with Council's Trade Waste Policy, or transported to an approved hazardous waste facility. The licensee must comply with the conditions of the Current Trade Waste Permit or conditions of an approved hazardous waste facility (if applicable).

5.0 Waste

- 5.1 Waste shall not be released to the environment which will or may cause environmental harm or nuisance unless such release is authorised by this licence.
- 5.2 All solid waste shall be removed to an approved waste disposal facility.
- 5.3 Liquid waste including trade waste shall be discharged to sewer or held on site until removed to an approved waste facility.
- 5.4 Engines and automatic transmissions should be drained of all waste oil before vehicles are placed in the storage yard.
- 5.5 Absorbent materials such as rags, kitty litter or sawdust should be on hand to clean up any spills.

6.0 Site Contamination

- 6.1 The premises are to be operated in such a manner as to minimise any land contamination.
- 6.2 All batteries are to be appropriately stored to prevent any potential spillage or contamination.
- 6.3 Waste oil, paint tins, acid drums etc shall be stored in a covered bunded area or an alternative area that will prevent the escape of any spills from the workshop.
- 6.4 Absorbent materials such as rags, kitty litter or sawdust are to be kept on hand to clean up any spills.

Environmental Protection Act 1994 Environmental Authority

Environmental Authority Licence Number: 146000065

The Maryborough City Council in pursuance of the provisions of the Environmental Protection Act 1994 hereby grants an Environmental Authority.

To:-
Parkinson & Son's Pty. Ltd.
Address:- 612 Alice Street, MARYBOROUGH QLD 4650

in respect of carrying out the environmentally relevant activity:-

- 1. Motor Vehicle Workshop
- 2. Metal Recovery

Trading as: **Parky's Parts**

at:- 612 Alice Street, MARYBOROUGH QLD 4650

This Environmental Authority is granted subject to the holder observing and complying with the provisions of the Environmental Protection Act 1994, the Environmental Protection Regulation 1998 and the attached schedule A.

This licence is conditional upon compliance with all other approvals, licences, and requirements of the Maryborough City Council and State and Federal Governments.

This licence takes effect fifteen (15) days from the date below and shall remain in force, unless sooner suspended or cancelled.

Dated this Nineteenth day of December 2002.

N E GORRIE
CHIEF EXECUTIVE OFFICER

7.0 Light

- 7.1 Lighting used to illuminate any areas of the premises shall be angled or shaded so that the light issuing there from does not directly illuminate any nearby premises or roadways in such a manner as to constitute an environmental nuisance.

8.0 Source Monitoring

Inspections by Authorised Persons

- 8.1 At all reasonable times and to the satisfaction of an authorised person, the holder of the environmental authority must provide monitoring facilities and maintain access to the monitoring positions for authorised person the check compliance.

9.0 Procedures

- 9.1 Practices and procedures, relating to the prevention of environmental harm or nuisance during normal operations and emergencies, must be documented and available at all times to persons engaged in the conduct of the activity within twelve (12) months of this licence taking effect.

10.0 Training

- 10.1 All persons engaged in the conduct of the activity must be trained in the practices and procedures relating to the prevention of unlawful environmental harm during normal operations and emergencies within twelve (12) months of this licence taking effect.

11.0 Notice of other duties

- 11.1 All flammable and combustible material is to be stored in accordance with the Dangerous Goods Safety Management Act 2001 and Australian Standard - AS 1940 (1993) - 'The storage and handling of flammable and combustible liquids'.
- 11.2 The holder of this licence is advised that notwithstanding this licence, there may be obligations at law under the Environmental Protection Act (for compliance with Environmental Protection Policies), Maryborough City Council Town Planning & Building requirements, the Contaminated Land Act and other obligations at law created by the Federal, State and Local Governments.

End of Conditions

Environmental Protection Act 1994 Environmental Authority

Environmental Authority Licence Number: 146000070

2. Activity details (cont.)

1. Which category best describes the locality in which the premises / place is situated?

Industrial estate Commercial area
Residential area Rural

2. Are the premises located within 500 metres of the following areas?

a. Hospitals, schools or residential buildings
No Yes Indicate approx. distance

74 METRES - RESIDENTIAL BLDGS.

b. Waterbodies (creeks, rivers, lakes, water supply catchments)

No Yes Indicate approx. distance

STORMWATER RUN-OFF

c. Other sensitive land uses (community parks, children's day care centres, etc.)

No Yes Specify & indicate approx. distance

127 METRES - REST AREA

3. What are the hours of operation for this activity?

Mon-Fri	Start 8 a.m.	Finish 5 p.m.
Saturday	Start 8 a.m.	Finish 12 NOON p.m.
Sunday	Start - a.m.	Finish - a.m.

4. Does this activity generate any liquid waste?

No Yes Specify OIL & SOLVENTS

a. Do you discharge liquid waste to the sewer?

No Yes

If yes, does the property owner have a Trade Waste Permit?

No Yes Provide Permit N°

b. Is any liquid waste removed from the premises by contractor?

No Yes

If yes, state contractor and method of disposal.

FUEL & OIL SALVAGE - TANKER
VESSELS PETROLEUM - ✓

5. Are any flammable and combustible materials stored or used on-site?

No Yes Attach a list

6. Are any other chemical or hazardous substances, e.g. ozone depleting substances (CFC's) stored or used on site?

No Yes Attach a list

3. Compliance Profile

1. Are any other local government licences or permits required for the activity/ies conducted on the premises?

No Yes List other licences held

[Empty box for listing other licences held]

2. Have you as an individual or executive officer of a corporation, under this Act or similar state or interstate Environmental legislation, been convicted of a breach of or had a licence or approval either cancelled or suspended?

No Yes Provide details

[Empty box for providing details]

3. Does the activity/ies carried out on the premises / place have town planning approval?

No Yes Don't know

Office verification

4. Do you consider that you need town planning approval?

No Yes Don't know

4. Contaminated Land

Is the ground (soil) contaminated with chemicals and / or other waste?

Unlikely

Possible

Site is registered in the contaminated Land register

NOT KNOWN

5. Environmental Management

- 1. Are stormwater drains located on-site?
No Yes
- 2. Is the site affected by stormwater run off from another source? (e.g. an adjacent site)
No Yes Specify

ADJACENT SITE

- 3. Does your work area drain to the stormwater system?
No Yes
- 4. Are there any waste water discharge to stormwater drains?
No Yes
- 5. Have any of the following measures been implemented to minimise stormwater pollution?

- Diverting run off away from contaminated areas
- Reducing the size of contaminated areas
- Cleaning contaminated areas without using water or solvent (e.g. sweeping)
- Separating contaminated and uncontaminated areas
- Installing and or maintaining oil separators, silt, rubbish traps, or other types of stormwater diversion systems
- Paving, Roofing and bunding contaminated areas
- Any other process or procedures to minimize stormwater pollution

- 6. Do you have a Site Management Plan (including equipment maintenance, practices and procedures) to prevent pollution or contamination during the normal operations of the activity?

No Yes *Is it documented?*
No Yes

- 7. Do you have an Emergency Plan that includes practices and procedures to prevent pollution or contamination during an emergency situation?

No Yes *Is it documented?*
No Yes

- 8. Do you have any other environmental reports or assessments pertaining to your business? (e.g. Environment Impact Statement)

No Yes *Attach a copy*

6. Site Plan

A site plan (a scaled drawing or sketch plan with dimensions) should accompany this application and include the following details:

- Adjacent land uses
- Position of the building relative to the site boundaries
- Location, type and site fencing or other buffers
- Location of all noise generating (both stationary and mobile) equipment
- Location and type of light source (e.g. showroom security, advertising lights)
- Location of all stormwater drain discharge points (to either stormwater system, natural waterway or canal)
- Location of all other waste sources (e.g. gaseous emissions such as overspray, etc.)
- Location of sewer entry point and interceptors
- Location of storage of chemicals, fuels, other wastes

7. Certification

I am the operator of the activity and apply for environment authority to carry out the activity / activities on or at the above premises / place in accordance with the information provided.

I understand that information given with this application could become available to the public (see note below)

I, being aware that it is an offence to provide false and misleading information under section 171 of the Environment Protection Act 1994, declare:

- 1. That I am authorised to sign on behalf of the person (meaning a corporation or individual) in all respects.
- 2. That the information supplied is correct to the best of my knowledge or the best that I could reasonably obtain. The maximum penalty for providing false or misleading information is 165 penalty points and may result in the suspension or cancellation of a licence.

Released Under RTI Act 2009

5. Since your last annual return, have you fully complied with the conditions of your Environmental Authority/Development Approval/Licence and your general Environmental Duty?

- Yes Go to Section 6
- No Please provide a description of the non-compliant incident/s and remedial action undertaken in response to the incident/s, below.

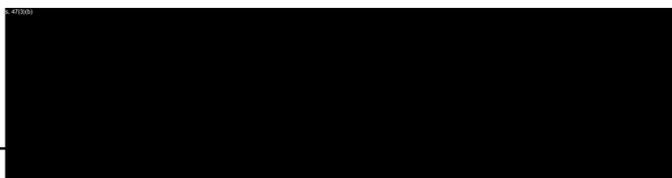

6. List any other environmentally relevant activity that is being conducted on site (A listing of environmentally relevant activities is included in the Information attachment)

7. Certification

I/We 
 Name of person signing the annual return

Being aware that it is an offence under Section 481 of the *Environmental Protection Act 1994* to provide false or misleading information, state that:

- i I am authorized to sign on behalf of the person (meaning the corporation or individual) holding the licence; and
- ii all information provided is true and complete; and
- iii I understand that information given within this Annual Return could become available to the public in accordance with the *Freedom of Information Act 1992* and *The Evidence Act 1977*.

Signed:  Date: 19.11.09

Position of Signatory: DIRECTOR / OWNER.
 (e.g. Owner, Partner, Director)

Advice of quantities of materials produced and or quantities of product used in process

For the following activities ONLY, please provide the relevant information and return to Councils environmental health and regulation section with your annual return and renewal form

Old environmentally relevant activity number.	New environmentally relevant activity Number	type of product	volume
11. Crude oil or petroleum product storage	8. Chemical storage		
8,1,3 a--- Storing more than 10cu m of class c1 or c2 combustible liquids or dangerous goods class 3 storing more than 10 cu m but less than 500000cu m			
59. Asphalt manufacturing	6. Asphalt manufacturing		product produced
manufacturing in a year less than 1000 tonne			
manufacturing in a year more than 1000 tonne			
27. Metal recovery	20. Metal recovery		product recovered
scrap metal yard or facility for dismantling automotive or mechanical equipment recovering less than 100 tonne of metal per day			LESS THAN 100 TONNE
scrap metal yard or facility for dismantling automotive or mechanical equipment recovering 100 tonne or more of metal in a day or 10000 tonne of metal or more per yr without using a fragmentiser			
24. Boiler making or engineering	18. Boiler making or engineering		product produced
Where boiler making , assembling, building or manufacturing involves more than 200 tonne but less than 10000 tonne of metal product per yr			
Where boiler making , assembling, building or manufacturing involves more than 10000 tonne of metal product per yr			
25. Metal surface coating	38. Surface coating		coating material
(38,1a)anodising, electroplating, enamelling or galvanising using 1tonne to 100 tonne of surface coating material per yr			
(38,1,b)coating, painting or powder coating using 1 tonne to 100 tonne of surface coating materials per yr			
26. Metal forming	19. Metal forming		coating material
pressing, forging, extending, rolling, extruding metal; forming metal into plates, wire or rods, fabricating metal into sheets 10000t or more per year			
51. Plastic manufacturing	12. Plastic manufacturing		product produced
manufacturing 50 tonne or more per year- other than foam, composite plastics or rigid reinforced plastics			
manufacturing in a year 5 tonne or more of foam, composite plastics or rigid reinforced plastics			
52. Printing	37. Printing		product produced
printing materials includes advertising material, magazines, newspapers, packaging and stationery 200 tonne to 1000 tonne			
printing materials includes advertising material, magazines, newspapers, packaging and stationery more than 1000 tonne per year			
68. Wooden product manufacturing	48. Wooden and laminated product manufacturing (including reconstituted timber products)		product produced
Manufacturing 100 tonne or more of wooden products in a year (manufacturing, a wooden product, includes spraying a coating or glue on the product as part of the manufacturing process.)

Relevant Activity ~ Codes and Descriptions

Code	Environmentally Relevant Activity description
ERA4T1	4. Poultry farming - Threshold 1 - farming more than 1000 birds but less than 200000
ERA4T2	4. Poultry farming - Threshold 2 - farming more than 200000
ERA6A	6. Asphalt manufacturing - Threshold (a) - manufacturing in a year less than 1000 tonne
ERA6B	6. Asphalt manufacturing - Threshold (b) - manufacturing in a year more than 1000 tonne
ERA8.1.c	8.1. Chemical storage - Threshold 3(a) - Storing more than 10cu m of class c1 or c2 combustible liquids or dangerous goods class 3 storing more than 10cu m but less than 500cu m
ERA12.1A1	12.1.a. Plastic manufacturing - Threshold 1 - manufacturing 50 tonne or more per year of plastic product - other than foam, composite plastics or rigid reinforced plastics
ERA12.1B2	12.1.b. Plastic manufacturing - Threshold 2 - manufacturing in a year 5 tonne or more of foam, composite plastics or rigid reinforced plastics
ERA17	17. Abrasive blasting - Abrasive blasting (the <i>relevant activity</i>) consists of cleaning equipment or structures on a commercial basis using a stream of abrasives in either a wet or dry pressure stream.
ERA18TA	18. Boiler making or engineering - Threshold (a) - where boiler making , assembling, building or manufacturing involves more than 200 tonne but less than 10000 tonne of metal product per yr
ERA18TB	18. Boiler making or engineering - Threshold (b) - where boiler making , assembling, building or manufacturing involves more than 10000 tonne of metal product per yr
ERA19	19. Metal forming - pressing, forging, extending, rolling, extruding metal; forming metal into plates, wire or rods, fabricating metal into sheets 10000t or more per year
ERA20.1.A1	20.1.a. Metal recovery - Threshold 1 - scrap metal yard recovering less than 100 tonne of metal per day
ERA20.1A2	20.1.a. Metal recovery - Threshold 2a - scrap metal yard recovering 100 tonne or more of metal in a day or 10000 tonne of metal or more per yr without using a fragmentiser
ERA20.1B1	20.1.b. Metal recovery - Threshold 1 - facility for dismantling automotive or mechanical equipment recovering less than 100 tonne of metal per day
ERA20.1B2	20.1.b. Metal recovery - Threshold 2a - facility for dismantling automotive or mechanical equipment recovering 100 tonne or more of metal in a day or 10000 tonne of metal or more per yr without using a fragmentiser
ERA21	21. Motor vehicle workshop - operation consists of operating a workshop on a commercial basis or in the course of carrying on a commercial enterprise involving any of the following relating to motor vehicles (a) maintaining mechanical components, engine cooling radiators or body panels, (b) spray painting body panels, (c) detailing or washing
ERA37A	37. Printing - Threshold (a) - printing materials includes advertising material, magazines, newspapers, packaging and stationery 200 tonne to 1000 tonne
ERA37B	37. Printing - Threshold (b) - printing materials includes advertising material, magazines, newspapers, packaging and stationery more than 1000 tonne per year
ERA38.1A1	38.1.a. Threshold 1(a) - anodising, electroplating, enamelling or galvanising using 1 tonne to 100 tonne of surface coating material per yr
ERA38.1B2	38.1.b. Surface coating - Threshold 2a - coating, painting or powder coating, using 1 tonne to 100 tonne of surface coating material per yr
ERA43	43. Concrete batching - producing concrete or concrete products (200 tonne or more per year)
ERA48.1.A	48.1.a. Wooden and laminated product manufacturing - Manufacturing 100 tonne or more of wooden products in a year (manufacturing, a wooden product, includes spraying a coating or glue on the product as part of the manufacturing process.)
ERA49	49. Boat maintenance or repair - operating a boat maintenance or repair facility for maintaining or repairing hulls, superstructure or mechanical components of boats or seaplanes
ERA61	61. Waste incineration and thermal treatment - Threshold 1 - incinerating waste vegetation, clean paper or cardboard in a facility.

ANNUAL RETURN for Registration Certificate

*Environmental Protection Act 1994 -
Section 316*

This form must be completed and submitted to Council each year by the holder of a registration certificate under Section 316 of the Environmental Protection Act 1994. Please ensure you have your registration certificate/environmental authority/decision notice handy as it will assist you in completing this form.

Should you have ERA8(1)(c) - Chemical storage at your property, Attachment 1 must also be completed and submitted.

Examples have been given to assist you in completing this form. If there is insufficient space, please attach additional information.

1. Registration Certificate Holder

Full Name: (Individual or Company)

[Redacted Name]

If the applicant is a company, please provide names of Company Directors/authorised signatories

Name	Position	Signatory (y/n)

Trading As:

PARKY`S PARTS

Activity Address:

612 ALICE STREET MARYBOROUGH QLD 4650

Postal address for business:

AS Above

Current Registration Number: EP2009/0060

2. Have any business activities changed since your last Annual Return?

Yes Please provide details on changes **below**

No Go to **3**

3. Site specific conditions

(a) Are there any 'site specific conditions (notice of defects)' listed on your Environmental Authority or Development Approval?

Yes Answer **(b)** and **(c)** below

No Go to **4**

Note: Check the conditions of your authority. Information may include for example: results of monitoring undertaken since the last Annual Return or an assessment report based on the monitoring conducted.

(b) Which 'site specific conditions (notice of defects)' have been completed?

Refer to development / authority Conditions or Defects Notice	Action taken to address condition
<i>Eg. Trade waste disposal to be arranged with Council</i>	<i>Eg. 'I have made application for a trade waste permit.'</i>

(c) Which 'site specific conditions (notice of defects)' have not been completed?

Refer to development / authority Conditions or Defects Notice	Action taken to address condition
<i>Eg. Trade waste disposal to be arranged with Council</i>	<i>Eg. 'I have made application for a trade waste permit.'</i>

Note: If site specific conditions have not been completed and you have not provided any information, please indicate your reasons for not providing the information, whether you intend to submit the information late or do not intend to submit the information at all.

4. Did a condition of your Environmental Authority or Development Approval require you to take any stated measures during the last 12 months?

Yes Please provide details on stated measures taken.

No Go to **5**

Note: Check the conditions of your Environmental Authority / development approval. Stated measures could include: submit an Environmental Management Plan, implement a stormwater management plan or an Integrated Environmental Management System, or install and commission a certain piece of pollution control equipment.

5. Since your last annual return, have you fully complied with the conditions of your Environmental Authority / Development Approval / Licence and your general Environmental Duty?

Yes Go to 6

No Please provide a description of the non-compliant incident/s and remedial action undertaken in response to the incident/s, below.

6. List any other environmentally relevant activity that is being conducted on site (A listing of environmentally relevant activities is included in the Information attachment)

7. Certification

I/We,

Name of person signing the annual return

being aware that it is an offence under Section 481 of the Environmental Protection Act 1994 to provide false or misleading information, state that:

- (i) I am authorised to sign on behalf of the person (meaning the corporation or individual) holding the licence; and
- (ii) All information provided is true and complete; and
- (iii) I understand that information given within this Annual Return could become available to the public in accordance with the Freedom of Information Act 1992 and The Evidence Act 1977.

Signed: _____

Date: 31-8-11

Position of Signatory: Director
(e.g. Owner, Partner, Director)

Attachment 1

For operators of ERA 8(1)(c) – Chemical Storage

1. Have any of the following changes occurred at the site since your last registration renewal?

- No go to question 2
- Yes* the volumes of flammable and combustible liquids stored
- Yes* change in tank content
- Yes* modifications, replacement, additions/removal of equipment or infrastructure

***(To all questions answered YES above, please attach further information.)**

2. What is the volume of flammable and combustible liquids stored?

Chemical Stored	Volume (litres)
Eg. Tank 1 - Unleaded Petrol	10,000

3. Which 'site specific conditions (notice of defects)' have been completed?

Refer to Development Approval conditions or defect notice	Action taken to address condition

(b) Which 'site specific conditions (notice of defects)' have not been completed? (see above)

Refer to Development Approval conditions or defect notice	Action taken to address condition

4. (a) What volume of flammable and combustible liquid turned over annually?

(b) Are you exceeding the 1.2ML throughout per year?

ASG

ANDY GAZE
EXECUTIVE MANAGER
ENVIRONMENTAL HEALTH & REGULATION
(Delegate of the Administering Authority)

Date of Issue: 18 October 2010

CONDITIONS OF REGISTRATION

1. The registered operator is required to undertake activities in accordance with conditions of a Development Approval or Environmental Code of Compliance.
2. The administering authority may cancel or suspend a registration certificate if:
 - a. the certificate was issued because of a materially false or misleading representation or declaration, made either orally or in writing; or
 - b. the registered operator is, after the issue of the registration certificate, convicted of an environmental offence; or
 - c. the operator has been given an annual notice and the notice has not been complied with.
3. Unless sooner suspended or cancelled, the registration certificate expires if:
 - a. the registered operator (the **existing registered operator**) disposes of the operator's business to someone else; and
 - b. another registration certificate for the activity (the **new registration certificate**) is given to a person other than the existing registered operator

TAKE NOTICE: The granting of this registration certificate does not exempt the registered operator from the need to obtain such other approvals as may be required under other legislation.

The particulars contained in this registration certificate and attachment are those currently shown in Council's records. If incorrect, please notify Council's Environmental Health & Regulation Department on 1300 79 49 29.

Fraser Coast
REGIONAL COUNCIL

Environmental Protection Act 1994

Certificate of Registration

2011/2012

This registration certificate is a requirement of the *Environmental Protection Act 1994* and authorises the registered operator to undertake the activities listed below at the following places, subject to the registered operator holding a current development approval for the activities on this site.

The anniversary day for the purpose of the Annual Return is: 15 September 2012

Registered Operator:	s. 47(3)(b)
Registered Operators Postal Address:	s. 47(3)(b)
ACN/ABN:	

Registration Number:	EP2009/0060

ANDY GAZE
EXECUTIVE MANAGER
REGULATORY SERVICES
(Delegate of the Administering Authority)

Date of Issue: 6 September 2011

CONDITIONS OF REGISTRATION

1. The registered operator is required to undertake activities in accordance with conditions of a Development Approval or Environmental Code of Compliance.
2. The administering authority may cancel or suspend a registration certificate if:
 - a. the certificate was issued because of a materially false or misleading representation or declaration, made either orally or in writing; or
 - b. the registered operator is, after the issue of the registration certificate, convicted of an environmental offence; or
 - c. the operator has been given an annual notice and the notice has not been complied with.
3. Unless sooner suspended or cancelled, the registration certificate expires if:
 - a. the registered operator (the **existing registered operator**) disposes of the operator's business to someone else; and
 - b. another registration certificate for the activity (the **new registration certificate**) is given to a person other than the existing registered operator

TAKE NOTICE: The granting of this registration certificate does not exempt the registered operator from the need to obtain such other approvals as may be required under other legislation.

The particulars contained in this registration certificate and attachment are those currently shown in Council's records. If incorrect, please notify Council's Regulatory Services Department on 1300 79 49 29.

Relevant Activity ~ Codes and Descriptions

Code	Environmentally Relevant Activity description
ERA4T1	4. Poultry farming - Threshold 1 - farming more than 1000 birds but less than 200000
ERA4T2	4. Poultry farming - Threshold 2 - farming more than 200000
ERA6A	6. Asphalt manufacturing - Threshold (a) - manufacturing in a year less than 1000 tonne
ERA6B	6. Asphalt manufacturing - Threshold (b) - manufacturing in a year more than 1000 tonne
ERA8.1.c	8.1. Chemical storage - Threshold 3(a) - Storing more than 10cu m of class c1 or c2 combustible liquids or dangerous goods class 3 storing more than 10cu m but less than 500cu m
ERA12.1A1	12.1.a. Plastic manufacturing - Threshold 1 - manufacturing 50 tonne or more per year of plastic product - other than foam, composite plastics or rigid reinforced plastics
ERA12.1B2	12.1.b. Plastic manufacturing - Threshold 2 - manufacturing in a year 5 tonne or more of foam, composite plastics or rigid reinforced plastics
ERA17	17. Abrasive blasting - Abrasive blasting (the <i>relevant activity</i>) consists of cleaning equipment or structures on a commercial basis using a stream of abrasives in either a wet or dry pressure stream.
ERA18TA	18. Boiler making or engineering - Threshold (a) - where boiler making , assembling, building or manufacturing involves more than 200 tonne but less than 10000 tonne of metal product per yr
ERA18TB	18. Boiler making or engineering - Threshold (b) - where boiler making , assembling, building or manufacturing involves more than 10000 tonne of metal product per yr
ERA19	19. Metal forming - pressing, forging, extending, rolling, extruding metal; forming metal into plates, wire or rods, fabricating metal into sheets 10000t or more per year
ERA20.1.A1	20.1.a. Metal recovery - Threshold 1 - scrap metal yard recovering less than 100 tonne of metal per day
ERA20.1A2	20.1.a. Metal recovery - Threshold 2a - scrap metal yard recovering 100 tonne or more of metal in a day or 10000 tonne of metal or more per yr without using a fragmentiser
ERA20.1B1	20.1.b. Metal recovery - Threshold 1 - facility for dismantling automotive or mechanical equipment recovering less than 100 tonne of metal per day
ERA20.1B2	20.1.b. Metal recovery - Threshold 2a - facility for dismantling automotive or mechanical equipment recovering 100 tonne or more of metal in a day or 10000 tonne of metal or more per yr without using a fragmentiser
ERA21	21. Motor vehicle workshop - operation consists of operating a workshop on a commercial basis or in the course of carrying on a commercial enterprise involving any of the following relating to motor vehicles (a) maintaining mechanical components, engine cooling radiators or body panels, (b) spray painting body panels, (c) detailing or washing
ERA37A	37. Printing - Threshold (a) - printing materials includes advertising material, magazines, newspapers, packaging and stationery 200 tonne to 1000 tonne
ERA37B	37. Printing - Threshold (b) - printing materials includes advertising material, magazines, newspapers, packaging and stationery more than 1000 tonne per year
ERA38.1A1	38.1.a. Threshold 1(a) - anodising, electroplating, enamelling or galvanising using 1 tonne to 100 tonne of surface coating material per yr
ERA38.1B2	38.1.b. Surface coating - Threshold 2a - coating, painting or powder coating, using 1 tonne to 100 tonne of surface coating material per yr
ERA43	43. Concrete batching - producing concrete or concrete products (200 tonne or more per year)
ERA48.1.A	48.1.a. Wooden and laminated product manufacturing - Manufacturing 100 tonne or more of wooden products in a year (manufacturing, a wooden product, includes spraying a coating or glue on the product as part of the manufacturing process.)
ERA49	49. Boat maintenance or repair - operating a boat maintenance or repair facility for maintaining or repairing hulls, superstructure or mechanical components of boats or seaplanes
ERA61	61. Waste incineration and thermal treatment - Threshold 1 - incinerating waste vegetation, clean paper or cardboard in a facility.

Released Under RTI Act 2009

ANNUAL RETURN for Registration Certificate

*Environmental Protection Act 1994 –
Section 316*

This form must be completed and submitted to Council each year by the holder of a registration certificate under Section 316 of the Environmental Protection Act 1994. Please ensure you have your registration certificate/environmental authority/decision notice handy as it will assist you in completing this form.

Should you have ERA8(1)(c) – Chemical storage at your property, Attachment 1 must also be completed and submitted.

Examples have been given to assist you in completing this form. If there is insufficient space, please attach additional information.

1. Registration Certificate Holder

Full Name: (Individual or Company)

If the applicant is a company, please provide names of Company Directors/authorised signatories

Name	Position	Signatory (y/n)

Trading As: PARKY`S PARTS

Activity Address: 612 ALICE STREET MARYBOROUGH QLD 4650

Postal address for business: _____

Current Registration Number: EP2009/0060

2. Have any business activities changed since your last Annual Return?

Yes Please provide details on changes **below**

No Go to **3**

3. Site specific conditions

- (a) Are there any 'site specific conditions (notice of defects)' listed on your Environmental Authority or Development Approval?

Yes Answer (b) and (c) below

No Go to 4

Note: Check the conditions of your authority. Information may include for example: results of monitoring undertaken since the last Annual Return or an assessment report based on the monitoring conducted.

- (b) Which 'site specific conditions (notice of defects)' have been completed?

Refer to development / authority Conditions or Defects Notice	Action taken to address condition
<i>Eg. Trade waste disposal to be arranged with Council</i>	<i>Eg. 'I have made application for a trade waste permit.'</i>

- (c) Which 'site specific conditions (notice of defects)' have not been completed?

Refer to development / authority Conditions or Defects Notice	Action taken to address condition
<i>Eg. Trade waste disposal to be arranged with Council</i>	<i>Eg. 'I have made application for a trade waste permit.'</i>

Note: If site specific conditions have not been completed and you have not provided any information, please indicate your reasons for not providing the information, whether you intend to submit the information late or do not intend to submit the information at all.

4. Did a condition of your Environmental Authority or Development Approval require you to take any stated measures during the last 12 months?

Yes Please provide details on stated measures taken.

No Go to 5

Note: Check the conditions of your Environmental Authority / development approval. Stated measures could include: submit an Environmental Management Plan, implement a stormwater management plan or an Integrated Environmental Management System, or install and commission a certain piece of pollution control equipment.

5. Since your last annual return, have you fully complied with the conditions of your Environmental Authority / Development Approval / Licence and your general Environmental Duty?

Yes Go to **6**

No Please provide a description of the non-compliant incident/s and remedial action undertaken in response to the incident/s, below.

6. List any other environmentally relevant activity that is being conducted on site (A listing of environmentally relevant activities is included in the Information attachment)

7. Certification

I/We,

Name of person signing the annual return

being aware that it is an offence under Section 481 of the *Environmental Protection Act 1994* to provide false or misleading information, state that:

- (i) I am authorised to sign on behalf of the person (meaning the corporation or individual) holding the licence; and
- (ii) All information provided is true and complete; and
- (iii) I understand that information given within this Annual Return could become available to the public in accordance with the Freedom of Information Act 1992 and *The Evidence Act 1977*.

Signed: _____ Date: _____

Position of Signatory: _____
(e.g. Owner, Partner, Director)

Attachment 1

For operators of ERA 8(1)(c) – Chemical Storage

1. Have any of the following changes occurred at the site since your last registration renewal?

No go to question 2

Yes* the volumes of flammable and combustible liquids stored

Yes* change in tank content

Yes* modifications, replacement, additions/removal of equipment or infrastructure

***(To all questions answered YES above, please attach further information.)**

2. What is the volume of flammable and combustible liquids stored?

Chemical Stored	Volume (litres)
<i>Eg. Tank 1 – Unleaded Petrol</i>	<i>10,000</i>

3. Which 'site specific conditions (notice of defects)' have been completed?

Refer to Development Approval conditions or defect notice	Action taken to address condition

(b) Which 'site specific conditions (notice of defects)' have not been completed? (see above)

Refer to Development Approval conditions or defect notice	Action taken to address condition

4. (a) What volume of flammable and combustible liquid turned over annually?

(b) Are you exceeding the 1.2ML throughout per year?

s. 47(3)(b)

Dear s. 47(3)(b)

RE: ENVIRONMENTAL AUTHORITY – EP2009/0060 – 612 ALICE STREET MARYBOROUGH QLD 4650

Thank you for the assistance you have recently given to Council Officers, during the inspection of your premises for the Environmental Authority as referenced above.

The *Environmental Protection Act 1994* (the Act) and *Environment Protection Regulation 2008* (the Regulation), Chapter 8, Part 1, Schedule 10, legislates that annual fees are payable to the administering authority (Fraser Coast Regional Council) for the conduct of a defined Environmentally Relevant Activity (ERA).

The Act sets a base fee, plus an aggregate fee for certain ERAs, based on an estimate of environmental emissions. The Act permits the Administering Authority to set fees at a higher or lower value by resolution or local law.

Please be advised that Council has set an annual Environmental Authority fee which will be applied consistently across all Environmental Authority holders and the adopted fee is considerably less than the fees set by the Regulation.

Council is endeavoring to ensure that these fees remain competitive with other nearby regions, to support existing businesses and to attract new business to the Fraser Coast region.

The invoices for Environmental Authorities, for the 2017/2018 financial year will be issued towards the end of May, 2017, with a due date of 30 June, 2017.

Please do not hesitate to contact Council's Environmental Health team on 1300 79 49 29 to discuss any aspect of your Environmental Authority.

Yours faithfully,

DAVID MURRAY
EXECUTIVE MANAGER
REGULATORY SERVICES

Contact Officer: Donnalee Olive
Phone: 1300 79 49 29

Released Under RTI Act 2009

Application for Surrender of an Environmental Authority

Authorising Provision
Environmental Protection Act 1994
 Sections 257 and 262

This approved form is to only be used for applications requesting the surrender of an environmental authority under sections 257 and 262 of the *Environmental Protection Act 1994* (EP Act). Only the holder of an environmental authority can apply to surrender the environmental authority.

Privacy Collection Notice: Fraser Coast Regional Council is collecting your name, the name and location of your business in accordance with the *Environmental Protection Act 1994* in order to assess your application. This information will only be accessed by employees and/or Councillors of Fraser Coast Regional Council for Council business related activities. Some of this information may be given to the Department Environment & Heritage Protection (DEHP) for local government reporting to DEHP. Your information will not be given to any other person or agency unless you have given permission or it is required by law.

Please tick relevant boxes	Yes	No	Additional details										
Has the land been removed from the environmental management register?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	If yes, you must attach evidence (e.g. a notice) advising that details have been removed from the environmental management register										
Has a site management plan been approved for the land?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	If yes, attach a copy of the site management plan.										

Section 3: Is the environmental authority that is to be surrendered, subject to any of the following statutory requirements under the EP Act?		
Please tick relevant boxes	Yes	No
Transitional environmental program	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Environmental protection order	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Environmental evaluation	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Prosecution proceedings	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Other (please specify):	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Other requirements:	<input type="checkbox"/>	<input type="checkbox"/>

Section 4: Have all of the ERAs contained within the environmental authority commenced?

Yes

No → Only some of the ERAs being surrendered have commenced. Provide details of the ERAs that are to be surrendered but have not yet commenced in the table below.

ERAs not yet commenced	Location (including Lot & RP numbers)

If none of the ERAs within the environmental authority have commenced. **Go to Section 6**

Section 5: Compliance Statement
This compliance statement must be completed by, or on behalf of the environmental authority holder.

Describe the extent to which the activities carried out under the environmental authority have complied with each condition of approval. Provide additional documentation if required.

Describe the qualifications and experience of the person signing this compliance statement.

Provide details of the date, method and evidence used to verify compliance and accuracy.

I ,
 (insert name and position of person making the compliance statement)

Only a person with appropriate environmental expertise should sign this compliance statement. Eg. the environmental authority holder, a full time employee of the environmental authority holder, or a consultant to the environmental authority holder.

Methods to verify compliance may include a desktop assessment of documentation, an interview with the landowner/holder or a field operator or a site inspection.

Evidence used may include photographs, statements and other documentation.

- Make this compliance statement as, or for the holder of the environmental authority.
- Confirm that, to the best of my knowledge, all information provided as part of this compliance statement, including attachments, is true, correct and complete. I am aware that it is an offence under section 480 of the *Environmental Protection Act 1994*, to give the administering authority information that I know is false, misleading or incomplete.
- Confirm that, to the best of my knowledge, this compliance statement, including attachments, does not include false, misleading or incomplete information.
- Confirm that, to the best of my knowledge, I have not knowingly failed to reveal any relevant information or document to the administering authority.
- Confirm that, to the best of my knowledge, all information provided in this compliance statement, including attachments, address the relevant matters and are factually correct.
- Confirm that the opinions expressed in this compliance statement, including attachments, are honestly and reasonably held.
- I understand that all information supplied as part of this compliance statement, including attachments, can be disclosed publicly in accordance with the *Right to Information Act 2009* and the *Evidence Act 1977*.

Signature: _____ Date: _____

Where there is more than 1 holder of the environmental authority, this declaration is to be signed by all holders.

Section 6: Applicant Declaration

Note: If you have not told the truth in this application you may be prosecuted. Where an agreement is in place between all holders of the environmental authority, that one (1) holder can sign on behalf of the other joint holders, please tick the below checkbox.

I am authorised to sign on behalf of the other joint environmental authority holders

I declare that:

- I am the holder of the environmental authority, or authorised signatory for the holder of the environmental authority.
- The information provided is true and correct to the best of my knowledge. I understand that it is an offence under s. 480 of the *Environmental Protection Act 1994* to give to the administering authority or an authorised person a document containing information that I know is false, misleading or incomplete in a material particular.
- I understand that failure to provide sufficient information may result in the application being refused.
- I understand that all information supplied on or with this application form may be disclosed publicly in accordance with the *Right to Information Act 2009* and the *Evidence Act 1977*.
- I understand that an incomplete application may be invalid. Invalid applications will be returned without processing and will only be processed if resubmitted with all invalidating issues addressed.
- Where 'No' is ticked in section 4, that all or some of the approved ERAs were not commenced.

Where the environmental authority holder is a company, this form must be signed by an authorised person for that company.

Applicant's full name: s. 47(3)(b) _____
